SEWING INSTRUCTIONS

INSTRUCTIONS

Please take note of the sewing and care instructions in this book, so you do not harm the rules and you will enjoy your backnumber for a long time.

It is best to have your Backnumber sewed on by a saddler or tailor who has got an industrial sewing machine.

Please use strong and thick needles. Depending on how thick your Judogi is needles could also break.

It is essential to use white thread for sewing. Sew as close as possible along the outer edge of your backnumber and then as shown above.

Please also note that it is not permitted to change the Backnumber.

HANDLING SELF-ADHESIVE STICKERS

SELF-ADHESIVE STICKERS

The sponsor label or country label has to be attached to the space provided of the Backnumber. The surface must be 100% dry. The stickers are designed to be removable if the sticking time is not longer than 72 hrs.

Please make sure not to leave your sponsor label or country label on your Backnumber for longer than necessary, as this could make removal difficult. Remove immediately after the event!!! We do not assume any liability for damage to the backnumber or for adhesive residue on the backnumber.

No glue products can be additionally heated, because otherwise glue residues could occur.
